PREFACE

The existing information on Ecuadorian revenues is scattered here and there in different catalogues, philatelic magazines, small articles etc. One of the aims of this listing is to list all, to authors knowledge, printed information on the Ecuadorian revenues.

It is not known how much faulty information from earlier studies have been copied to the later publications, including this, and it leaves room for some speculation. Some of the catalogues/listings have not been exact enough and sometimes a part of available information have been omitted.

Knowing well that this listing has many errors and lack of information and it is far from complete, I have wanted to bring it to collectors in hope of feedback to be able to improve it in future.

Revenue Telegraph stamps are not included, because they are already in the S.E.R. Hiscocks catalogue. The revenues are divided into different groups according to their type of use.

In many revenues the issuing year and the number of stamps is not known.

The number of faked cancellation "faked" in this listing means cto postmarks, and it is surprisingly high. Almost all of the high values have faked cancellations up to 1908. In all cases they are postmarks. At the end of 19th century all remaining stock was sold to a dealer and a large part of the stamps were cto. The same thing happened again 1908 and this time dealers got also the cancellers. It means that (to the authors opinion) up to 1909 postally used revenues have to be on documents, covers, etc. to be consired authentically used. Loose revenue stamps with postmarks are questionable.

All printing etc. information, if known, concerns the original stamps. The different settings of overprints/surcharges has been mentioned whenever the information has been available or confirmed by author's own studies.

The perforation is in most cases line perforation and therefore different sizes of stamps especially during 1881-1898 are found.

As most of the overprints of the Ecuadorian revenues was done in the beginning by handstamping, it is clear that many varieties occurred. They have been catalogued, if they have been seen or confirmed from several different sources.

Stamps with vertical black line or which have extra perforation either vertically or horizontally are remainders.

The pricing of Ecuador revenues has been left out because there is not yet enough information about the right price level and thus the rarity factor in many cases is unclear.

The information on some revenues, genuine or bogus/fakes has not been verified up to date and they are in the end of this listing and have been left without numbers and with a note that they are propably bogus.

There are still many questions to answer and if you find someting which is missing from this listing or you can correct the information, the author would greatly appreciate it.

I hope that this listing helps Ecuador Revenue collectors and I sincerely hope to get much feedback in order to improve this listing of Ecuadorian revenues.

1881 revenues are called in revenue literature, "essays", but regarding the quantities that exist, handstamped later for use in 1884 and 1886, it seems that they are not essays but normal, printing which were ordered by the Ecuadorian Government, but which never came into "REVENUE" use in 1881. All cancelled copies (seen by the writer) have faked cancellation.

Copies exist (blocks) from ABN Archive ledger book, perf 12, with large punched security hole.

Imperforate proofs are known; a. on card or b. on India paper:

NEW TYPE OF DESIGN

For the following issues 1897-1910 many different perforations (for unknown reason) were used, here are listed following:

a	13½
b	13½ x 14
c	14
d	14 x 13
e	14 x 13½
f	14 x 14½
g	14½
h	14½ x 14
i	14½ x 15
j	15
k	15 x 14
l	15 x 14½
m	15½
n	16

Compound perforations has been found and the perforation varieties needs more clarification and readers are invited to send all information they have to the writer.

	CONTROL MARKS
--	---------------

1902

Recess, Waterlow & Sons Ltd., London. White wove paper, no wmk.
Perf is given after each value.

When a fire occurred in Guayaquil in July 1902 a large quantity of stamps were looted. These were mainly fiscal stamps but some postage stamps were also stolen. In order to prevent their use the Government ordered local authorities to handstamp their stocks with Control Marks.

The Control Marks were applied by handstamps and found in differing positions. Some of the Control Marks covers two or four stamps.

Handstamps were applied in various colours. Recorded colours on revenue stamps are following: black, violet, red, green, blue, grey and yellow.

Some of the Control Marked revenue stamps in later years were also overprinted/surcharged for postal, official telegraph and postal tax purposes.

Francois Fournier has forged at least following overprints:
Azuay, Bolivar, TII, Chimborazo, Esmeraldas, Guayas, Guayaquil
Railway Co. TIII

TREASURY DEPARTMENT

Pursuant to the two Presidential decrees, the Treasury Department in Quito applied the oval "RESELLADO 1902" control mark to all its remaining revenue stamps of the 1901-1902 biennum.

NEW TYPE OF DESIGN

SECURITY MARKINGS

From 1969 most issues printed by OFFSETEC and by the Military Geographical Institute in Quito have fluorescent Security Markings. Those markings are printed continuously across the surface of the sheet and are clearly visible under U.V. light, although sometimes more than one stamp is required to show the entire wording. The markings come upright, inverted and reading sideways, and there are four distinct types of overlay.

Type I "GOBIERNO DEL ECUADOR GOB."
large letters, widely spaced lines

Type II "GOBIERNO DEL ECUADOR SUMINISTROS DEL ESTADO - GOB."
Small letters, closely spaced lines

Type III "SERVICIO DE CORREOS NACIONALES EMPRESA DEL ESTADO-SER."
Intermediate size letters, closely spaced lines

Type IV "GOBIERNO DEL ECUADOR INSTITUTO, GEOGRAPHICO MILITAR GOB"
Intermediate size letters, closely spaced lines

Some of the stamps without these surface markings have light green Control Marks printed on the reverse underneath the gum, in the form of a coat of arms in a double-lined circle, inscribed "GOBIERNO DEL ECUADOR". The Control Mark is over four stamps.

TIMBRE PATRIOTICO / NATIONAL DEFENCE

In "Congreso Extraordinario" 1910 under the president General Eloy Alfara was decided to found a fund for National Defence, Ecuador was in war with Peru, and to collect money for this purpose all in business used papers as bills, bills of exchange, dispatch notes etc. had to be provided with revenue stamp for Timbre Patriotico (National Defence). So different tobacco and alcohol stamps were printed /overprinted/surcharged for Timbre Patriotico. In autumn, september 1912 (?) the Congress under the president General Leonidas Plaza Gutierrez decided to print special stamps of 1c and 10c value (#221, 222), but general revenue stamps were used for that purpose too.

FOLLOWING CONTROL MARKS ARE FAKES

By decree #21 of September 20 1901 the Waterlow & Sons issue of 1899 was "absolutely retired" from circulation. Thus there is no legal basis upon which the 1902 control marks could appear on the 1899-1900 postage issue. The same must apply to revenue stamps from 1899-1900 too.
